To: RICHARD SAMUEL GOODWIN PROCTER LLP 103 EISENHOWER PARKWAY ROSELAND, NJ 07068	PCT		
	NOTIFICATION OF TRANSMITTAL OF THE INTERNATIONAL SEARCH REPORT OR THE DECLARATION		
	(PCT Rule 44.1)		
	Date of Mailing (day/month/year)		
Applicant's or agent's file reference 103636-366-P	FOR FURTHER ACTION See paragraphs 1 and 4 below		
International application No. PCT/US03/34370	International filing date (day/month/year)		
Applicant INOOVATIVE SYSTEM DESIGN INC.	29 October 2003 (29.10.2003)		
N			
Filing of amendments and statement under Article 19			
The applicant is entitled, if he so wishes, to amend the e When? The time limit for fitting such amendments i	laims of the international application (see Rule 46): s normally two months from the date of transmittal of the		
international search report.	-		
Where? Directly to the International Bureau of WIPO, 34, chemin des Colombettes 1211 Geneva 20, Switzerland, Facsimile No.: (41-22) 740.14.35			
For more detailed instructions, see the notes on the	accompanying sheet.		
2. The applicant is hereby notified that no international search report will be established and that the declaration under Article 17(2)(a) to that effect is transmitted herewith.			
3. With regard to the protest against payment of (an) add	itional fee(s) under Rule 40.2, the applicant is notified that:		
the protest together with the decision thereon has be applicant's request to forward the texts of both the	een transmitted to the International Bureau together with the protest and the decision thereon to the designated Offices.		
no decision has been made yet on the protest; the applicant will be notified as soon as a decision is made.			
4. Reminders			
Shortly after 18 months from the priority date, the international application will be published by the International Bureau. If the applicant wishes to avoid or postpone publication, a notice of withdrawal of the international application, or of the priority claim, must reach the International Bureau as provided in Rules 90 bis.1 and 90 bis.3, respectively, before the completion of the technical preparations for international publication.			
Within 19 months from the priority date, but only in respect of some designated Offices, a demand for international preliminary examination must be filed if the applicant wishes to postpone the entry into the national phase until 30 months from the priority date (in some Offices even later); otherwise the applicant must, within 20 months from the priority date, perform the prescribed acts for entry into the national phase before those designated Offices.			
In respect of other designated Offices, the time limit of 30 months (or later) will apply even if no demand is filed within 19 months.			
See the Annex to Form PCT/IB/301 and, for details about the applicable time limits, Office by Office, see the PCT Applicant's Guide, Volume II, National Chapters and the WIPO Internet site.

INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's 0 103636-366-	er agent's file reference P	FOR FURTHER ACTION	see Notifi Report (F item 5 be	cetion of Transmittal of International Search form PCT/ISA/220) as well as, where applicable,
International PCT/US03/3	application No. 4370	International filing date (day/mons 29 October 2003 (29.10.2003)		(Earliest) Priority Date (day/month/year) 29 October 2002 (29.10.2002)
Applicam INOOVATIVE SYSTEM DESIGN INC.				
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau. This international search report consists of a total of sbeets. It is also accompanied by a copy of each prior art document cited in this report.				
Basis of the Report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.				
the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)). b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:				
	contained in the internation	al application in written form.		·
🔲	filed together with the inter	national application in computer rea	dable form	n.
	furnished subsequently to the	nis Authority in written form.		
	furnished subsequently to the	is Authority in computer readable f	om.	
the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.				
	the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.			
2.	Certain claims were found	i unsearchable (See Box I).		
3.	3. Unity of invention is lacking (See Box II).			
4. With regard to the title,				
	the text is approved as submitted by the applicant.			
the text has been established by this Authority to read as follows: Please See Continuation Sheet				
5. With r	egard to the abstract,	•		
	the text is approved as submitted by the applicant.			
				y as it appears in Box III. The applicant may, bort, submit comments to this Authority.
6. The figure of the drawings to be published with the abstract is Figure No. 10				
	as suggested by the applica-	nt.	_	None of the figures
	because the applicant failed	to suggest a figure.		
	because this figure better characterizes the invention.

INTERNATIONAL SEARCH REPORT

International application No.	
PCT/US03/34370	

Box I Observations where certain claims were found unsearchable (Continuation of Item 1 of first sheet)
This international report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
Claim Nos.: because they relate to subject matter not required to be searched by this Authority, tramely:
2. Claim Nos.: 7 because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically: Claim 7 recites a "trade secret algorithm, not fully disclosed" in Line 11 of the claim. An unknown/undisclosed functional element cannot be searched.
3. Claim Nos.: 7-9 because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box II Observations where unity of invention is lacking (Continuation of Item 2 of first sheet)
This International Searching Authority found multiple inventions in this international application, as follows:
1. As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
Remark on Protest The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US03/34370

Box III TEXT OF THE ABSTRACT (Continuation of Item 5 of the first sheet)

The technical features mentioned in the abstract do not include a reference sign between parentheses (PCT Rule 8.1(d)).

NEW ABSTRACT

Provided herein are exemplary techniques for visualizing patterns of changes and behavior on a compute infrastructure composed of abstracted network elements and entities (Figure 10). A Differential View interface provides for complete visualization of infrastructure change and behavior for specific network elements/entities, groups of said elements/entities, or the system as a whole. That is, this interface further provides interactive filters that identify and display patterns of change and behavior of said elements and entities, on a graduated scale, for the compute infrastructure, as a whole, for specific groups, and individual entities within the infrastructure.
